SEAPEX 2015 - THE CONFERENCE

REGISTRATION \$1,150
www.seapexconf.org

SEC 2015 PROGRAMME OF EVENTS

Saturday 11th to 14th April

- Course: Petroleum Geology of SE Asia
- Course: Edge Workshop on Non-Seismic Mapping

Tuesday 14th April Badge Collection

- Golf (Tanah Merah)
- Badge Collection
- Reception

Wednesday 15th April

- State of Play
- Bangladesh-India-Indonesia (W)
- Session 4: Indonesia-Asia-Pacific
- Special Session: Counter-cyclic Strategy for Australasia
- Quiz Night

Friday 17th April Conference

- Session 8: Reserves - Papua New Guinea - New Zealand
- Session 9: Australia NW Shelf (West)
- Session 10: Vietnam
- Closing Session
- Asia-Pacific Scout Check
- APSC and Seapex Cocktail evening

Note: Subject to alteration. All events in Fairmont Hotel unless otherwise stated.

Advanced Surface Logging Services International, Independent and Innovative

20-22 May
IPA JAKARTA
2015
Booth #AS 258

Optimizing, Evaluating, and Protecting Oil and Gas Operations for over 30 years.

At GEOLOG we aim to be best in class in Surface Logging, it's our single focus and as a result we provide customers with the highest level of service possible with proprietary patented technology.

Real Time Services Offered in the Field

Advanced Gas Detection

- G5 (DualFid) · C1-nC5 quantitative gas analysis
- G8 (DualFidStar) · C6-nC8 quantitative gas using constant volume, temperature, and pressure
- GeoFluid · GCMS gas analysis
- GeolIsotopes · Measuring stable Carbon Isotopes of C1, C2, C3 and CO2 in real time

Drilling Efficiency

- GeoFracture · Detecting fractures while drilling using high resolution flow meters
- GeoCVM · Borehole stability and cleanout efficiency from cutting volume machines at shakers
- GeoKickAlarm · Early Kick Detection
- GeoDrillBest · Software analytics of rig operations

GeoChemistry

- GeoSource · TOC, Pyrolysis
- GeoROX · XRF, XRD

Reduce Total Operating Costs

- Optimize Wireline Operations
- Reduce NPT
- Reduce Downhole Risks
- Accurately characterize reservoirs
- Real-Time Data and Analysis
